Trex Enhance®

COMPOSITE DECKING

DECKING: TREX ENHANCE® IN HONEY GROVE

Beauty on a budget, without compromising style

SUNCOMFORTABLE™ HEAT-MITIGATING* TECHNOLOGY AVAILABLE IN SPECIFIC COLORS

MADE FROM 95% RECYCLED AND RECLAIMED MATERIALS

25 YEARS

25-YEAR LIMITED RESIDENTIAL WARRANTY

*Trex SunComfortable™ decking stays cooler than our original boards, but like all decking, it will get hot in direct sun on hot days, especially darker colors. Care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

Trex Enhance® composite decking pairs the durability of composite with the affordability of wood.

Enhance decking boards are scalloped, making them our lightest composite deck boards yet.

DECKING PROFILES

1" Square-Edge Board

Our square edge boards are installed with deck screws, similar to traditional wood install.

ACTUAL SIZE & METRICS: .94 in x 5.5 in x 16 ft / 20 ft (24 mm x 140 mm x 487 cm / 609 cm)

1" Grooved-Edge Board

Our grooved-edge boards install with hidden fastener clips for a seamless, screw-free surface.

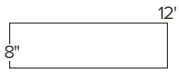

ACTUAL SIZE & METRICS: .94 in x 5.5 in x 12 ft / 16 ft / 20 ft (24 mm x 140 mm x 365 cm / 487 cm / 609 cm)

FASCIA PROFILES

1" x 8" Fascia Board

Use as deck trim, stair raisers and deck skirts for a long-lasting, beautifully finished look.

ACTUAL SIZE & METRICS: .56 in x 7.25 in x 12 ft (14 mm x 184 mm x 365 cm)

1" x 12" Fascia Board

Use as deck trim, stair raisers and deck skirts for a long-lasting, beautifully finished look.

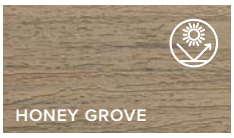

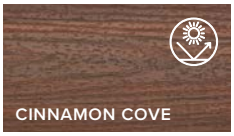

ACTUAL SIZE & METRICS: .56 in x 11.375 in x 12 ft (14 mm x 288 mm x 365 cm)

ENHANCE® NATURALS COLORS

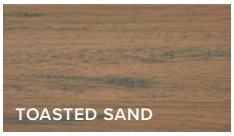

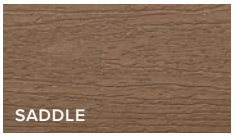

ENHANCE® BASICS COLORS

TREX HIDEAWAY® HIDDEN FASTENER SYSTEM
The fastener system delivers universal deck hidden fasteners, color-match decking and fascia screws, decking and fascia plugs, butt-joint clips, and starter clips. For a full list of approved fasteners, download our Installation Guide at **trex.com/literature.**

MARINE GRADE STRENGTH
All Trex Enhance® decking is engineered for harsh waterfront conditions with materials that withstand full submersion, salt, and constant moisture.

SUNCOMFORTABLE™ HEAT-MITIGATING* TECHNOLOGY
With SunComfortable™ Technology, we've achieved a major innovation, reducing heat buildup by up to 35°F† compared to our original boards.

*Trex SunComfortable™ decking stays cooler than our original boards, but like all decking, it will get hot in direct sun on hot days, especially darker colors. Care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

†Based on laboratory testing simulating direct full summer sun exposure over an extended period. Colors used are Lava Rock (without SunComfortable) and Salt Flat (with SunComfortable). Actual temperature reduction may vary depending on environmental conditions, color and usage. Trex decking with SunComfortable technology will still get hot when high temperatures and sun converge. Care should be taken on such days to avoid extended contact between exposed skin and the deck surface.
